

**28/04/2025**

Attendees: Nick Blamire Brown, Jeff Robinson, Nick Miles, Simon Pearson, Sue Foster (minutes), Katie Hobley. .

We are very please to welcome Katie to the team. Katie brings a wealth of knowledge and experience to the team from her role as a local Councillor.

Simon reported back on his meetings with Nathaniel Newton and Michael Drayton schools and the meeting with the Parish Council, all of which proved very successful. All parties are very supportive of our project.

Nick BB and Jeff are meeting with Mr Christian Mba at Hartshill Academy on 30/4/2025.

There were a few other potential uses raised for the “community hub”.

Katie said that North Warwickshire were looking for volunteer hubs where people go to pick up supplies for activities such as litter collection. Nick BB suggested an art club. A sensory room for children was also suggested.

The main item for this meeting was communication plans for engaging with the community of Hartshill and obtaining formal feedback.

There was a discussion of how to achieve a pictorial representation of our plan using CAD but without incurring much cost. Katie offered to have a go using ArtiCAD which she uses at work or even ChatGPT. (AP1)

Simon offered to produce a Questionnaire, possibly using Google Forms, to generate support and ideas. Simon will present it at our next meeting. Simon suggested that, to encourage people to complete the questionnaire, it could be a mini competition with a prize. (AP2)

Jeff said that he will communicate with the Ecclesiastical Insurance Company (AP3)

**Date of next meeting - 2<sup>nd</sup> June at 7pm. (Sue will hopefully join by FaceTime if the meeting is held in the Community Centre or Library)**
